HEALTH LABORATORY SCIENCE

VOLUME 15, 1978

INDEX

January	1-64	July	121-184
April	65-120	October	185-252

INDEX TO VOLUME 15, 1978

(Titles and Authors)

A

A Neuraminidase in Duck Embryo Rabies Vaccine. Kuwahara, S. S. and Burgoyne, G. H. 201
A Practical Method of Antimicrobial Surveillance. Carruthers, M. M. and Grant, K. 44
A Simple Method for Estimating a "Heparin Binding Capacity" of Human Serum. Pearson, R. D. and Lubin, A. H. 32
Allen, D. J. et al. Surface Topography of *Acanthamoeba culbertsoni* Extracted from Cerebrospinal Fluid 235
An Identification Scheme for Gram-Negative Nonfermentative Bacilli. Burdash, N. M., West, M. E., Bannister, E. R., and Manos, J. P. 95
An Improved Polystyrene Polymeric XAD-2 Resin Column Extraction of 5β-Cholestan-3β-ol from Polluted Water. Wun, C., Walker, R. W. and Litsky, W. 67
An Indirect Fluorescent Antibody Technique for *Haemophilus ducreyi*. Denys, G. A., Chapel, T. A., and Jeffries, C. D. 128
Anderson, G. R., Gottshall, R. Y., Nelson, E., and Angela, F. Quadruple Vaccines Containing Pertussis and Poliomyelitis Vaccines 138
Angela, F. et al. Quadruple Vaccines Containing Pertussis and Poliomyelitis Vaccines. 138

B

Bagley, S. T. and Seidler, R. J. Comparative Pathogenicity of Environmental and Clinical Klebsiella 104
Bannister, E. R. et al. An Identification Scheme for Gram-Negative Nonfermentative Bacilli 95
Barnes, C. et al. Wescodyne: Lack of Activity against Poliovirus 133
Bogden, J. D., Lintz, D. I., Joselow, M. M., Charles, J., and Salaki, J. S. Copper/Zinc Ratios in Whole Blood, Plasma, and Erythrocytes in Pulmonary Tuberculosis 38
Bol, J. et al. Enzyme Linked Immunosorbent Assay (ELISA) for Determination of *Staphylococcus Aureus* Enterotoxin Type B 28
Book Reviews 183, 245
Borchardt, K. A., et al. Micromethod for Rapid Identification of Gram-Negative Nonfermentative Bacteria 9
Brooke, M. M. Certification of Medical and Public Health Laboratory Personnel by Professional Organizations 221
Brown, A., Davis, L., Yee, R., and Postic, B. Endemic *Serratia marcescens* in the Veterans Administration Hospital in Pittsburgh, PA, 1971–1976 159
Burdash, N. M., West, M. E., Bannister, E. R., and Manos, J. P. An Identification Scheme for Gram-Negative Nonfermentative Bacilli 95
Burgoyne, G. H. et al. A Neuraminidase in Duck Embryo Rabies Vaccine 201

C

Cada, R. L. and West, D. K. Quality Assurance Practice in Rural and Urban Hospital Clinical Laboratories 112
Carruthers, M. M. and Grant, K. A Practical Method of Antimicrobial Surveillance . 44
Certification of Medical and Public Health Laboratory Personnel by Professional Organizations. Brooke, M. M. 221

Chapel, T. A. et al. An Indirect Fluorescent Antibody Technique for *Haemophilus ducreyi* 128
Chappell, W. A. et al. The Comparison of Viral Antibody Titers of Acid-precipitated and Non-precipitated Mouse Ascitic Fluids 91
Charles, J. et al. Copper/Zinc Ratios in Whole Blood, Plasma, and Erythrocytes in Pulmonary Tuberculosis 38
Chen, N. et al. Gonorrhea Card Test: An Agglutination Test for Uncomplicated Gonorrhea 192
Cody, R. M. Preservation and Storage of Pathogenic Neisseria 206
Committee on Microbial Contamination of Surfaces, Laboratory Section, APHA. Microbiologic Guidelines for Hemodialysis Systems 174
Committee on Microbial Contamination of Surfaces, Laboratory Section, APHA. Proposed Microbiologic Guidelines for Respiratory Therapy Equipment and Materials 177
Comparative Pathogenicity of Environmental and Clinical Klebsiella. Bagley, S. T. and Seidler, R. J. 104
Comparison of the Minitek Test System with a Conventional Screening Program for Identification of *Enterobacteriaceae*. Hanson, C. W., Marso, E., and Martin, W. J. 3
Copper/Zinc Ratios in Whole Blood, Plasma, and Erythrocytes in Pulmonary Tuberculosis. Bogden, J. D., Lintz, D. I., Joselow, M. M., Charles, J., and Salaki, J. S. 38
Crull, S. L. et al. Micromethod for Rapid Identification of Gram-Negative, Nonfermentative Bacteria 9

D

Davis, L. et al. Endemic *Serratia marcescens* in the Veterans Administration Hospital in Pittsburgh, PA, 1971–1976 159
Denys, G. A., Chapel, T. A., and Jeffries, C. D. An Indirect Fluorescent Antibody Technique for *Haemophilus ducreyi* 128
Detection of Antibodies to *Neisseria gonorrhoeae* by Counterimmunoelectrophoresis. Schrader, J. A. and Gaafar, H. A. 15
Detection of Lipopolysaccharide in Suspected Bacteriuric Urine Using a Carbocyanine Dye. Gray, G. S. and Miller, C. A. 150
Documentation: The First Step in Laboratory Management. Stanifer, L. A. 227
Drulak, M. et al. Wescodyne: Lack of Activity against Poliovirus 133

E

Endemic *Serratia marcescens* in the Veterans Administration Hospital in Pittsburgh, PA, 1971–1976. Brown, A., Davis, L., Yee, R. and Postic, B. 159
Enzyme Linked Immunosorbent Assay (ELISA) for Determination of Staphylococcus Aureus Enterotoxin Type B. Notermans, S., Verjans, H. L., Bol, J., and van Schothorst, M. 28
Estrem, I. E. et al. Laboratory-Acquired Infections at the National Animal Disease Center, 1960–1976 58
Evaluation of an Office Method of Detecting Bacteriuria. Silverblatt, F. J., Furr, S., and Jennings, L. 86
Evaluation of Mycobacteriology Laboratories: The Acid-fast Smear. Gruft, H. . . . 215
Evaluation of Primary Plating Media for the Isolation of Group A Streptococcus from Delayed Throat Cultures. Pien, F. D., Rudoy, R., Goto, N., and Uemura, H. S. . 189
Evaluation of Reagin Card Tests for Syphilis. Stevens, R. W., Gombel, K., and Gaafar, H. A. 81

F

Faur, Y. C., Weisburd, M. H., and Wilson, M. E. The Selectivity of Vancomycin and Lincomycin in NYC Medium for the Recovery of *N. gonorrhoeae* from Clinical Specimens 22
Frank, S. K. and von Riesen, V. L. Metabolism of Glycosides by *Pseudomonas maltophilia* 168
Fraser, D. J. et al. *Pseudomonas aeruginosa* in Swimming Pools Related to the Incidence of Otitis Externa Infection 50
Furr, S. et al. Evaluation of an Office Method of Detecting Bacteriuria 86

G

Gaafar, H. A. et al. Detection of Antibodies to *Neisseria gonorrhoeae* by Counterimmunoelectrophoresis 15
Gaafar, H. A. et al. Evaluation of Reagin Card Tests for Syphilis 81
Gaafar, H. A. et al. Gonorrhea Card Test: An Agglutination Test for Uncomplicated Gonorrhea 192
Gamble, W. C., Chappell, W. A., and George, E. H. The Comparison of Viral Antibody Titers of Acid-precipitated and Non-precipitated Mouse Ascitic Fluids . . . 91
George, E. H. et al. The Comparison of Viral Antibody Titers of Acid-precipitated and Non-precipitated Mouse Ascitic Fluids 91
Gibson, J. B., Crull, S. L., and Borchardt, K. A. Micromethod for Rapid Identification of Gram-Negative, Nonfermentative Bacteria 9
Gombel, K. et al. Evaluation of Reagin Card Tests for Syphilis 81
Gonorrhea Card Test: An Agglutination Test for Uncomplicated Gonorrhea. Kamei, K., Chen, N., and Gaafar, H. A. 192
Goto, N. et al. Evaluation of Primary Plating Media for the Isolation of Group A Streptococcus from Delayed Throat Cultures 189
Gottshall, R. Y. et al. Quadruple Vaccines Containing Pertussis and Poliomyelitis Vaccines 138
Grant, K. et al. A Practical Method of Antimicrobial Surveillance 44
Gray, G. S. and Miller, C. A. Detection of Lipopolysaccharide in Suspected Bacteriuric Urine Using a Carbocyanine Dye 150
Gruft, H. Evaluation of Mycobacteriology Laboratories: The Acid-fast Smear . . . 215

H

Hanson, C. W., Marso, E., and Martin, W. J. Comparison of the Minitek Test System with a Conventional Screening Procedure for Identification of *Enterobacteriaceae* 3
Health Laboratory Science 1964–1978 187
Hubbert, W. T. Occupational Health and Safety Programs in Schools of Veterinary Medicine 210

J

Jeffries, C. D. et al. An Indirect Fluorescent Antibody Technique for *Haemophilus ducreyi* 128
Jennings, L. et al. Evaluation of an Office Method of Detecting Bacteriuria 86
Joselow, M. M. et al. Copper/Zinc Ratios in Whole Blood, Plasma, and Erythrocytes in Pulmonary Tuberculosis 38

K

Kamei, K., Chen, N., and Gaafar, H. A. Gonorrhea Card Test: An Agglutination Test for Uncomplicated Gonorrhea 192
Kane, J. et al. The Comparison of Two Agar Media for Germ Tube and Chalamydospore Production by *Candida albicans* 197
Kay, C. et al. Wescodyne: Lack of Activity against Poliovirus 133
Kelly, S., Schedlbauer, L., and Leikhim, E. Rapid Identification of San Filippo Disease (MPS III) 123
Kuwahara, S. S. and Burgoyne, G. H. A Neuraminidase in Duck Embryo Rabies Vaccine 201

L

Laboratory-Acquired Infections at the National Animal Disease Center, 1960–1976. Sullivan, J. F., Songer, J. R., and Estrem, I. E. 58
Lead-erythrocyte Protoporphyrin Correlation in Blood of Exposed Workers. Peter, F. and Reynolds, R. G. 144
Lebtag, I. et al. Wescodyne: Lack of Activity against Poliovirus 133
Leikhim, E. et al. Rapid Identification of San Filippo Disease (MPS III) 123
Lintz, D. I. et al. Copper/Zinc Ratios in Whole Blood, Plasma, and Erythrocytes in Pulmonary Tuberculosis 38
Litsky, W. et al. An Improved Polystyrene Polymeric XAD-2 Resin Column Extraction of 5β-Cholestan-3β-ol from Polluted Water 67
Lubin, A. H. et al. A Simple Method for Estimating a "Heparin Binding Capacity" of Human Serum 32

M

Manos, J. P. et al. An Identification Scheme for Gram-Negative Nonfermentative Bacilli 95
Marso, E. et al. Comparison of the Minitek Test System with a Conventional Screening Procedure for Identification of *Enterobacteriaceae* 3
Martin, W. J. et al. Comparison of the Minitek Test System with a Conventional Screening Procedure for Identification of *Enterobacteriaceae* 3
Metabolism of Glycosides by *Pseudomonas maltophilia*. Frank, S. K. and von Riesen, V. L. 168
Microbiologic Guidelines for Hemodialysis Systems. Committee on Microbial Contamination of Surfaces, Laboratory Section, APHA 174
Micromethod for Rapid Identification of Gram-Negative, Nonfermentative Bacteria. Gibson, J. B., Crull, S. L., and Borchardt, K. A. 9
Miller, C. A. et al. Detection of Lipopolysaccharide in Suspected Bacteriuric Urine Using a Carbocyanine Dye 150

N

Nelson, E. et al. Quadruple Vaccines Containing Pertussis and Poliomyelitis Vaccines 138
Notermans, S. Verjans, H. L., Bol, J. and van Schothorst, M. Enzyme Linked Immunosorbent Assay (ELISA) for Determination of Staphylococcus Aureus Enterotoxin Type B 28

O

Occupational Health and Safety Programs in Schools of Veterinary Medicine. Hubbert, W. T. 210

P

Pearson, R. D. and Lubin, A. H. A Simple Method for Estimating a "Heparin Binding Capacity" of Human Serum 32
Peter, F. and Reynolds, R. G. Lead-erythrocyte Protoporphyrin Correlation in Exposed Workers 144
Pien, F. D., Rudoy, R., Goto, N., and Uemura, H. S. Evaluation of Primary Plating Media for the Isolation of Group A Streptococcus from Delayed Throat Cultures . 189
Poffenroth, L. et al. Wescodyne: Lack of Activity against Poliovirus 133
Postic, B. et al. Endemic *Serratia marcescens* in the Veterans Administration Hospital in Pittsburgh, PA, 1971–1976 159
Preservation and Storage of Pathogenic Neisseria. Cody, R. M. 206
Proposed Microbiologic Guidelines for Respiratory Therapy Equipment and Materials. Committee on Microbial Contamination of Surfaces, Laboratory Section, APHA 177
Prytula, A. et al. The Comparison of Two Agar Media for Germ Tube and Chlamydospore Production by *Candida albicans* 197
Pseudomonas aeruginosa in Swimming Pools Related to the Incidence of Otitis Externa Infection. Seyfried, P. L. and Fraser, D. J. 50

Q

Quadruple Vaccines Containing Pertussis and Poliomyelitis Vaccines. Anderson, G. R., Gottshall, R. Y., Nelson, E., and Angela, F. 138
Quality Assurance Practices in Rural and Urban Hospital Clinical Laboratories. Cada, R. L. and West, D. K. 112

R

Rapid Identification of San Filippo Disease (MPS III). Kelly, S., Schedlbauer, L., and Leikhim, E. 123
Reynolds, R. G. et al. Lead-erythrocyte Protoporphyrin Correlation in Blood of Exposed Workers 144
Rudoy, R. et al. Evaluation of Primary Plating Media for the Isolation of Group A Streptococcus from Delayed Throat Cultures 189

S

Salaki, J. S. et al. Copper/Zinc Ratios in Whole Blood, Plasma, and Erythrocytes in Pulmonary Tuberculosis 38
Sarphie, T. G. and Allen, D. J. Surface Topography of *Acanthamoeba culbertsoni* Extracted from Cerebrospinal Fluid 235

Schedlbauer, L. et al. Rapid Identification of San Filippo Disease (MPS III) 123
Schrader, J. A. and Gaafar, H. A. Detection of Antibodies to *Neisseria gonorrhoeae* by Counterimmunoelectrophoresis 15
Seidler, R. J. et al. Comparative Pathogenicity of Environmental and Clinical Klebsiella 104
Seyfried, P. L. and Fraser, D. J. *Pseudomonas aeruginosa* in Swimming Pools Related to Incidence of Otitis Externa Infection 50
Silverblatt, F. J., Furr, S., and Jennings, L. Evaluation of an Office Method of Detecting Bacteriuria 86
Smith, L. DS. The Occurrence of *Clostridium Botulinum* and *Clostridium tetani* in the Soil of the United States 74
Smitka, C. et al. The Comparison of Two Agar Media for Germ Tube and Chlamydospore Production by *Candida albicans* 197
Songer, J. R. et al. Laboratory-Acquired Infections at the National Animal Disease Center, 1960–1976 58
Stanifer, L. A. Documentation: The First Step in Laboratory Management 227
Stevens, R. W., Gombel, K., and Gaafar, H. A. Evaluation of Reagin Card Tests for Syphilis 81
Sullivan, J. F., Songer, J. R., and Estrem, I. E. Laboratory-Acquired Infections at the National Animal Disease Center, 1960–1976 58
Surface Topography of *Acanthamoeba culbertsoni* Extracted from Cerebrospinal Fluid. Sarphie, T. G. and Allen J. D. 235

T

Tentative Program, Laboratory Section, APHA, October 16–20, 1978 180
The Comparison of Two Agar Media for Germ Tube and Chlamydospore Production by *Candida albicans* Yong, D. C. T., Smitka, C., Prytula, A., and Kane, J. 197
The Comparison of Viral Antibody Titers of Acid-precipitated and Non-precipitated Mouse Ascitic Fluids. Gamble, W. C., Chappell, W. A., and George, E. H. . . . 91
The Occurrence of *Clostridium Botulinum* and *Clostridium Tetani* in the Soil of the United States. Smith, L. DS. 74
The Selectivity of Vancomycin and Lincomycin in NYC Medium for the Recovery of *N. gonorrhoeae* from Clinical Specimens. Faur, Y. C., Weisburd, M. H., and Wilson, M. E. 22

U

Uemura, H. S. et al. Evaluation of Primary Plating Media for the Isolation of Group A Streptococcus from Delayed Throat Cultures 189

V

van Schothorst, M. et al. Enzyme Linked Immunosorbent Assay (ELISA) for Determination of Staphylococcus Aureus Enterotoxin Type B 28
Verjans, H. L. et al. Enzyme Linked Immunosorbent Assay (ELISA) for Determination of Staphylococcus Aureus Enterotoxin Type B 28
von Riesen, V. L. et al. Metabolism of Glycosides by *Pseudomonas Maltophilia* . . 168

W

Walker, R. W. et al. An Improved Polystyrene Polymeric XAD-2 Resin Column Extraction of 5β-Cholestan-3β-ol from Polluted Water 67
Wallbank, A. M., Drulak, M. Poffenroth, L., Barnes, C., Kay, C., and Leptag, I. Wescodyne: Lack of Activity against Poliovirus 133
Weisburd, M. H. Medium for the Recovery of *N. gonorrhoeae* from Clinical Specimens 22
Wescodyne: Lack of Activity against Poliovirus. Wallbank, A. M., Drulak, M., Poffenroth, L. Barnes, C. Kay C., and Lebtag I 133
West, D. K. et al. Quality Assurance Practice in rural and urban Hospital Clinical Laboratories 112
West, M. E. et al. An Identification Scheme for Gram-Negative Nonfermentative Bacilli 95
Wilson, M. E. et al. The Selectivity of Vancomycin and Linocymin in NYC Medium for the Recovery of *N. gonorrhoeae* from Clinial Specimens 22
Wun, C., Walker, R. W., and Litsky, W. An Improved Polystyrene Polymeric XAD-2 Resin Column Extraction of 5β-Cholestan-3β-ol from Polluted Water 67

Y
